The Senate Progressive Democrats are not inclined to humiliate, despite the fact that they lost out in the contest over the minority leadership. As a matter of fact, the anti-Bailey Democrats are the more numerous, and if it develops that the plan of filling the additional places with the Bailey men is going to be adhered to there doubtless will be a row of large dimensions.

CONNERS TO FIGHT DIX

Amherst, N. Y., April 9.—Against the new Democratic ex-cise department is to be waged by former State Chairman William J. Connors, his newspapers and his allies. If Governor Dix allows Ex-cise Commissioners Farley to name Henry F. Jerge, of Buffalo, as Deputy Ex-cise Commissioner, Governor Dix has already made Mr. Connors angry by appointing John W. Henry sheriff of Erie county, in place of Jerge, who is expected to be appointed on Monday.

Jerge and Henry belong to the Fitzpatrick faction, and both appointments were arranged with Governor Dix by State Commissioner Fitzpatrick, the Tammany ally. Buffalo, N. Y., State Committee men Connors and Burghard, nor Mayor Furbermann, of Buffalo, were consulted. Mr. Connors is confined to his home by a severe cold, but his lieutenants have received orders that if the insult of the ex-cise appointment is followed by the indignity of the Jerge appointment, the Connors guns are to open on Governor Dix and his Ex-cise Commissioner.

The Connors men say that Governor Dix pledged himself in the past to party harmony, to make no important appointments for Erie county without consulting Mr. Connors, Mr. Burghard and Mr. Furbermann. This pledge, they claim, has been broken in the appointment of Henry as sheriff of Erie and the prospective appointment of Jerge as Deputy Ex-cise Commissioner.

GUNNERS AT THEIR BEST

Make Great Scores During Fleet Battle Practice.

Washington, April 9.—American gunners have once more demonstrated their efficiency in handling the guns of the big battleships. The first results of the battle practice held a week ago by the ships of the Atlantic and Pacific fleets have been received by the Navy Department, and the results indicate a remarkable improvement in skill by the crews that sailed the big 12-inch guns.

In a statement to-day Secretary Meyer said the results of the firing showed remarkable accuracy, at ranges of 10,000 yards and over, distances of five to seven miles. The scores of the different ships have not yet been determined, as complete scores have not been received from the Pacific and Asiatic fleets, and a few vessels have not completed the night firing.

Actual war conditions prevailed in the practice this year.
